

REFRIGERANT RECLAIM PARTNERING

Keep refrigerant reclaimed from our market available for our market

1

Bring us any
USED refrigerant

2

Get a CLEAN
cylinder in return

NO charge for cylinder re-certification
NO more concerns about EPA liability or outdated cylinders
NO processing fee for reclaimed R22

1. Returned cylinders must contain at least 5 lbs of refrigerant. If a cylinder contains less, a \$35 charge will be applied.
2. We accept 30/50/125 lb cylinders
3. Large volume exchanges may require additional time to process.

Additional refrigerant reclaim partnering guidelines applied to R22:

1. The minimum amounts of returned R22 required to receive buy-back are as follows: 30 lb cylinder at least 10 lbs, 50 lb cylinder at least 20 lbs and 125 lb cylinder at least 50 lbs. We can track all refrigerant returns by customer and contractor job. Reports provided upon request.
2. Returned R22 must be 99%+ pure in order to get full credit. If the reclamation facility determines refrigerant is less than 99% pure, your company may be subject to future billings.

Current R22 buy-back rate is \$6.00 per pound

effective 6/12/17
